

# Synergy Billing Expands Operations in Tennessee

*Knoxville, TN (October 2, 2023)* – Synergy Billing is expanding its Tennessee operations to help all Tennesseans gain access to quality, affordable healthcare. Synergy Billing provides billing and revenue cycle services to Federally Qualified Health Centers (FQHCs), also known as Community Health Centers. Federally Qualified Health Centers make healthcare available to all individuals, regardless of whether they have health insurance.

Many services offered by Community Health Centers come at little-to-no cost, but the services have real value and real costs associated with them. Synergy Billing works exclusively for Community Health Centers helping them to collect and recover money from health insurance companies.

“Insurance companies don’t make money when they pay medical and dental claims. In fact, one-third are denied or returned to the FQHC. It’s the game insurance companies play. Our job is to hold them accountable and bring in money for Community Health Centers.” said Synergy Billing’s founder and CEO, Jayson Meyer.

The Synergy Billing expansion includes the creation of a state-specific taskforce that is dedicated to working with Tennessee’s health insurance companies, including TennCare and CMS. The expansion also includes hiring and training additional FQHC billing specialists located in the state.

“We have been operating in Tennessee for nearly 2 years and have an exceptional team that is well-versed in Tennessee players, including TennCare,” adds Debbie Loyd, Chief Operating Officer. “They are able to quickly establish what it will take to maximize our client’s revenue.”

Tennessee is home to 30 Federally Qualified Health

Centers that deliver comprehensive primary care and mental health services through nearly 200 sites across the state. These locally operated non-profit clinics employ more than 3,000 people and serve more than 434,000 patients each year. Patients that are at or below the poverty level receive a discount for services and quite often, their healthcare is free.

Based in Holly Hill, Florida, Synergy Billing provides full-service revenue cycle management exclusively to Federally Qualified Health Centers (FQHCs). These community health centers act as a safety net for the nation’s most vulnerable populations. Synergy Billing was founded in 2006 by entrepreneur M. Jayson Meyer, who is nationally recognized as an expert in health care technology and revenue cycle management.
